OBJECTIVE

Senior-level DevOps/SRE Engineer with 6+ years of experience leading multi-cloud infrastructure strategy and automation at scale. Expert in designing resilient, high-traffic systems and accelerating delivery through advanced CI/CD and Kubernetes orchestration. Looking to apply deep expertise in cloud architecture and client-facing engineering to a Senior DevOps, SRE, or Architect position.

EXPERIENCE

Professional Services Engineer

JetBrains N.V.

Mar 2025 - Present

Amsterdam, Netherlands

- **Orchestrated 6+ enterprise migrations** to JetBrains IDE Services within 2 weeks; **secured follow-on engagements** and drove product maturity via Helm chart optimizations, documentation fixes, and feature roadmap contributions.
- **Engineered a two-phase migration for 10k+ users** from legacy infrastructure **to a high-availability Kubernetes environment on AWS EKS**, significantly improving system uptime and license management efficiency.
- **Architected an IDE Services SaaS platform in AWS China**, standardizing regional deployments via CI/CD and observability; maintained **99.9% service availability** and integrated compliance features like configurable ICP footers.

Platform Engineer II

WeTransfer B.V.

Nov 2022 - Feb 2025

Amsterdam, Netherlands

- **Maintained, upgraded, and customized** several aspects of 7 kubernetes clusters, across 3 regions comprising **a mix of EKS and AWS EC2 clusters**.
- As an Eventing SME, led the migration of a 1.7 million messages/hour eventing setup from kops to EKS, achieving **zero downtime and zero message loss**.
- Streamlined and re-engineered the eventing system by replacing the complex AWS component-based system and custom kubernetes operator with a simplified Terraform-based solution, leading to a **30% improvement in end-to-end latency, significantly reducing system complexity and better DevEx. via SDKs**.
- **Boosted developer efficiency** through enhancements to our internal developer tool. Supported custom AMI creation, ephemeral deployments, deployment tracking, Terraform/Kubernetes code scaffolding, all while adhering to the **"You build it, you deploy it"** principle.
- Managed an org. wide **migration from TravisCI to Github Actions**.
- **Hosted several Kubernetes and Terraform workshops** for software engineers and knowledge-sharing sessions on our infrastructure. **Increased the average code quality and our knowledge base**.

Application Development Analyst

Accenture Solutions Pvt. Ltd.

Sep 2021 - Nov 2022

Noida, India

- **Integrated the deployment, testing and security checks under one CI/CD pipeline**, resulting in efficient deployments and resource optimization. The success of this project was replicated in different client projects and proposals.
- **Migrated an on-premise Kubernetes cluster to the cloud** on AWS EKS and automated release pipelines, saving manual efforts of 1-2 hours per release.
- **Got AWS Solutions Architect Certified**, already holding AWS Cloud Practitioner certification and Certified Kubernetes Application Developer (CKAD)

DevOps Associate
Provana Pvt. Ltd.

Aug 2019 - Sep 2021
Noida, India

- **Designed the first automation framework for the company.** Automated deployment of IConnect247, saving manual release efforts from 2 days to 3 hours.
- **Automated the daily monitoring of IConnect247** via Powershell, Azure Tables and Azure Functions. (Saved **3.5 hours daily** and made monitoring more efficient).
- **Defined product requirements and expedited on-boarding for non-technical on-prem clients.**
- **Helped the company on-board 20+ clients (10X Growth) within a few months** with the help of snapshots and Terraform scripts to setup the client in a few minutes and save additional efforts.

SKILLS

Technical Skills	AWS, Azure, Docker, Kubernetes, Terraform, Github Actions, Jenkins, Kustomize
Languages	Bash, Python, Go, Powershell

EDUCATION

Class XII , Bharatiya Vidya Bhawan's Mehta Vidyalaya (CBSE), Delhi, India	2014 - 2015
--	-------------

Bachelor of Technology, Electronics and Communication , IIIT Delhi, India	2015 - 2019
--	-------------
